

Bethlehem
Universal
"G" Set

real tools!

All sockets are made from special alloy steel that permits a thin, strong wall, decreasing socket size and weight. Every unit slips easily into position and requires a minimum of clearance.

The Universal "G" Set illustrated here is an unusually complete set, adequate for practically any job on a car or truck.

Made up of twenty-six units including such handy tools as four popular sizes of square sockets, ten hexagon sockets, a wing nut socket, an Alemite socket and others.

Bethlehem Socket Wrench Sets range in price from \$1 to \$18.50. List price of the Universal "G" Set, \$16.50. Sold through regular jobber and dealer channels.
